

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m2 and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m2 and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

REGISTER OF BUILDING SURVEYING CONTRACTORS AND PRACTITIONERS - BUILDING SERVICES REGISTRATION ACT 2011

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.

Expired	BSP328	345	2	Worden, Neil Peter		01/02/2013	01/07/2020		
Expired	BSP2144		Technician	Yacopetti, Joanne Laura		26/05/2016	26/05/2019		
Expired	BSP88		1	Young, Christopher James		25/10/2012	25/10/2014		

Notes

- **Sections of the register.** The register is published in four sections: 1 - currently registered contractors, 2 - currently registered practitioners, 3 - formerly registered, now expired contractors, 4 - formerly registered, now expired practitioners.
- **Building surveying contractors and practitioners.** A building surveying contractor is authorised to contract to provide building surveying services to others. A building surveying practitioner is entitled to be appointed as the nominated supervisor to a building surveying contractor, but may not personally contract to provide building surveying services to others. Each contractor is required to have appointed at least one nominated supervisor.
- **Level 1, 2 and Technician.** Building surveyors are registered at level 1, 2 or Technician. A Level 1 contractor or practitioner can perform statutory functions on all building types unless restricted by a specific condition placed on the practitioner's or contractor's registration. A Level 2 contractor or practitioner can perform statutory functions on all buildings with a floor area not exceeding 2,000m² and a rise not exceeding three storeys, unless further limited by a specific condition placed on the contractor's or practitioner's registration. The Technician level is applicable only to practitioners who are limited to performing statutory functions on buildings with a floor area not exceeding 500m² and a rise not exceeding two storeys, unless further limited by a specific condition placed on the practitioner's registration.
- **Conditions on a registration.** The Building Services Board can place conditions on a contractor's or a practitioner's registration. When the Board has applied conditions, the conditions will be shown under the contractor's or practitioner's name.
- **Reg No.** BSC for building surveying contractors and BSP for building surveying practitioners. Acronyms form part of the registration number.
